

## **Students' feedback for the academic year 2016 - 2017**

This online feedback system is used by the students to submit the feedback online and which can be accessed by the faculty administrator. The security is also maintained as feedback is only visible to the authentic user. This system helps faculty to improve the performance by analyzing the feedback given by students.

Online Feedback System generates proper feedback to faculty about their teaching quality by rating as Unsatisfactory, Satisfactory, Good, and Very Good. It enables to give feedback based on the relevant subject and respective faculty.

This process occurs towards the end of the first semester, in September, and towards the end of the second semester, in March. In each case, feedback is collected after students have been assessed on that particular subject, but prior to publication of results.

The student feedback form focuses on the following issues:

1. Knowledge base of the faculty(as perceived by you)
2. Communication skills (in terms of articulation and comprehensibility)
3. Sincerity /Commitment of the faculty
4. Interest generated by the faculty
5. Ability to integrate course material with environment /other issues, to provide a broader perspective
6. Ability to integrate content with other courses
7. Accessibility of the faculty in and out of the class (includes availability of the faculty to motivate further study and discussion outside class
8. Ability to design quizzes/ Tests/ assignments/examinations and projects to evaluate students understanding of the course
9. Provision of sufficient time for feedback
10. Overall rating
11. Students are not required to reveal their identity during the process of filling the online feedback form.

### **Objectives of Student Feedback:**

1. To provide students with the opportunity to reveal the quality of their learning experiences, as required in preparation for and as part of review processes
2. To assess the success of academic provision in relation to the expectations of students
3. To provide feedback to faculty in order to improve delivery and/or content of the subject.
